**USER GUIDE**

**Element PAR38 LED**

Model: E13-N11

## **Introduction:**

Sengled Element PAR38 LED bulbs offer a simple way to combine an LED floodlight and motion sensor. Motion events can trigger the Element PAR38 bulb under dark condition. This bulb enables customers to control multiple functions of their lights—On/Off, dimming, schedules, etc.—through the Sengled Home app or 3rd party voice control programs like Amazon Alexa or Google Assistant.

**Note:** A hub is required to control these bulbs.

## **Important Safety Information:**

Before installing the Sengled LED bulb, read and follow all precautions, including:

- Turn OFF the light switch controlling the light socket, before attempting to replace the light bulb.
- **WARNING: RISK OF ELECTRIC SHOCK.**  
Do not attempt to disassemble bulb.
- Not suitable for use with standard wall dimmers.
- Suitable for use in operating environment between -4°F and 104°F (-20°C and 40°C).
- **NOT FOR USE IN EMERGENCY LIGHTING.**

## Installation Instructions:

- 1 Download the latest version of the Sengled Home App from the Apple App Store or Google Play Store.
- 2 Register a Sengled account using Sengled Home App.

- 3 With power off, twist your Sengled Element PAR38 bulb into the socket.

- 4 Turn on power.

- 5 Open the Sengled Home App, go to Devices and use + to add a new device.

Select **Element Bulbs**, then follow the in-app instructions to finish installation.

- 6 Ensure your Sengled Home app can discover the bulb. If you have trouble or concerns with this step, please refer to the user manual available at [support.sengled.com](http://support.sengled.com).

## Operation:

The following outlines some of the popular operational modes for Sengled Element PAR38 bulbs. Additional benefits are available through the Sengled Home app. If you have questions please refer to [support.sengled.com](http://support.sengled.com) for the Element PAR38 bulbs user manual or Sengled Home app user manual.

### **A** Turning the bulb on and off

The Element PAR38 bulb can be controlled through the Sengled Home app. It will also be triggered on by motion events under dark conditions, and turn off automatically after a preset time after the last motion event has been detected.

### **B** Dimming

The Element PAR38 bulb can only be dimmed through the Sengled Home app via a slide bar.

### **C** Scheduling

The bulb can be scheduled with the Sengled Home App.

### **D** Check motion event log

Each bulb's motion event log is available via the Sengled Home app.

## **E** Voice Control

- Set up Amazon Alexa by adding **Sengled Home** Skill. (Check the in-app how-to page)
- Set up Google Assistant by adding **Sengled Home** Skill. (Check the in-app how-to page)

## **F** Third Party Control

Utilize a third-party program (like IFTTT) to control your lights. (Check the in-app how-to page)

## Frequently Asked Questions:

### 1. Can bulbs be used in sockets with dimmers?

No, bulbs are designed to be used in on/off sockets only.

### 2. Why will Element PAR38 bulbs not be triggered by motion events during the day?

The motion sensor will only trigger the LED light in dark conditions.

### 3. Are Sengled Element PAR38 bulbs compatible with Sengled Element Hub or other smart lighting hubs?

Yes, a hub is required to control Element PAR38 bulbs. Compatible hubs include:

- Sengled Element Hub
- Amazon Echo Plus
- SmartThings Hub

If your hub is not listed, please refer to [support.sengled.com](https://support.sengled.com) for the latest list of supported hubs.

### 4. Can Element PAR38 bulbs be used simultaneously with other Sengled Element bulbs?

Yes, a single Sengled Hub can support up to 64 devices of the Sengled Element family (Element Classic, Element Plus, Element Color Plus, Element 100W, and Element Smart Plug).

## Product Specifications:

Element PAR38 Bulb	Warm White
Model Number	E13-N11
Color Temperature	3000K
Lamp Type	PAR38 Floodlight Bulb
Socket	E26
Brightness	1200 Lumens
Power Consumption	14.5W (rated)
Replacement power	120W
Dimmer Switch Compatible	No
Lifetime (hours)	25,000
Color Rendering Index (CRI)	90
Beam Angle	40 degrees
Warranty	3 years
Voltage	110-130 Vac
Operation temperature	-4-104°F
Operation humidity	0-95%
Diameter	4.8 in (122 mm)
Height	5.2 in (132 mm)
Weight	12.9 oz (366g)

**Limited Warranty:**

2-year limited warranty from original purchase date. To learn more about the Limited Warranty for Sengled products, please visit [www.sengled.com/warranty](http://www.sengled.com/warranty).

**Support:**

If you encounter any issue with Sengled LED products, please visit [www.sengled.com](http://www.sengled.com) for support and troubleshooting information.

## FEDERAL COMMUNICATION COMMISSION (FCC) STATEMENT FOR USERS

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) This device must accept any interference received, including interference that may cause undesired operation.

### SECTION 15.21

The user's manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.

### FEDERAL COMMUNICATION COMMISSION INTERFERENCE STATEMENT, SECTION 15.105(b)

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
